# Office of Director-Juvenile Justice Delinquency Program (JJDP), Section 8.010

# Book 1 Page 98

The Juvenile Justice and Delinquency Prevention Act of 1974, as amended, Section 102(b) states, "it is therefore the further declared policy of Congress to provide the necessary resources, leadership, and coordination (1) to develop and implement effective methods of preventing and reducing juvenile delinquency, including methods with a special focus on preserving and strengthening families so that juveniles may be retained in their homes; (2) to develop and conduct effective programs to prevent delinquency, to divert juveniles from the traditional juvenile justice system and to provide critically needed alternatives to institutionalization; (3) to improve the quality of juvenile justice in the United States; (4) to increase the capacity of state and local governments and public and private agencies to conduct effective juvenile justice and delinquency preventions and rehabilitation programs and to provide research, evaluation, and training services in the field of juvenile delinquency prevention; (5) to encourage parental involvement in treatment and alternative disposition programs; (6) to provide for coordination of services between state, local, and community-based agencies and to promote interagency cooperation in providing such services.

# Office of Director – Narcotics Control Assistance/Justice Assistance Grant Section 8.015

# Book 1 Page 109

BYRNE/JAG- The purpose of this grant is to reduce and prevent illegal drug activity, crime, and violence and to improve the functioning of the criminal justice system. The majority of this funding goes to multi-jurisdictional drug task forces. LLEBG- To provide funds to units of local government for the purposes of reducing crime and improving public safety. Funds may be used for one or more of seven program purpose areas. Larger agencies receive direct awards, this funds smaller agencies for items such as portable radios, bulletproof vests, used patrol vehicles, light bars, etc. These two programs were once separate grants but have been rolled up into one grant called "Justice Assistance Grants" (JAG).

# Office of Director – MOSMART/Deputy Sheriff Salary Supplementation, Section 8.020

#### Book 1 Page 122

The Deputy Sheriff Salary supplementation Fund was created through the passage of HB 2224 in the 2008 session (Section 57.278 RSMo). It provided that the sheriff shall receive an additional \$10 fee for service of any civil summons, writ, subpoena or other court order. The money received by the sheriff shall be collected by the county treasurer and made payable to the state treasurer. The money paid to the state treasurer shall be deposited into the "Deputy Sheriff Salary SupplementationFund." The Missouri Sheriff Methamphetamine Relief Taskforce (MoSMART) shall administer the fund. MoSMART is responsible for administering the Depurty Sheriff Salary Supplementation Fund that is used to supplement the salaries of county deputy sheriffs. In addition, MoSMART is responsible for approving applications for the fund. The money in the fund shall be used solely to supplement the salaries, and employee benefits resulting from such salary increases, of county deputy sheriffs.

# Office of Director - Cyber Crimes Task Force Grants, Section 8.025

# Book 1 Page 127

The State Cyber Crime Grant (SCCG) Program was created to continue funding for the multi-jurisdictional cyber-crime task forces. Funds are awarded to law enforcement entities to reduce internet sex crimes against children and improve public safety through investigations, forensics, and prevention. These grants were previously funded through state appropriated Internet Cyber Crime Grant (ICCG) and federal appropriated ARRA (stimulus) funds.

## Office of Director – Services to Victims (State), Section 8.035

# Book 1 Page 153

The state's original victim assistance program was established under the auspices of the Department of Public Safety by the General Assembly with the adoption of 595.050, RSMo in 1981. With the passage of 595.100, RSMo (1988), the Services to Victims Fund was established. The Services to Victims Fund consists of money collected pursuant to section 595.045. Upon appropriation, this money shall be used solely for the administration of contracts for services to victims of crime pursuant to sections 595.050, 595.055, and 595.105. Funds are awarded to state and local units of government and private nonprofit agencies to provide direct services to victims of crime. Eligible direct services include, but are not limited to, crisis intervention, emergency shelter and other emergency services, support and advocacy services, court related services, training and technical assistance programs, and others. This funding is highly utilized by domestic violence shelters, rape crisis centers, child abuse treatment facilities, law enforcement and prosecutors to provide high quality services that directly improve the health and well-being of victims of crime.

## Office of Director – STOP Violence Against Women Program, Section 8.040

# Book 1 Page 158

Since 1995, the State of Missouri has been receiving funding through the S.T.O.P. Violence Against Women Grant Program as authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended by Title IV, Section 40121 of the Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322, reauthorized by the Violence Against Women Act of 2000. Since its inception, Missouri has provided approximately \$13 million in funding to programs throughout the state aimed at addressing violent crimes committed against women. At least 25% of the total grant funds available must be allocated to both law enforcement and prosecution, 30% to victim services agencies and 5% to court initiatives. In distributing funds, Missouri must give priority to areas of varying geographic size with the greatest showing of need, take into consideration the geographic population of the area to be served, equitably distribute monies geographically including non-urban and rural areask, and ensure that the needs of previously underserved populations are identified and addressed.

# Office of Director - Crime Victims Compensation/SAFE, Section 8.045

# Book 1 Page 169

The Crime Victims Compensation Program provides financial assistance to victims who have suffered physical harm as a result of violent crime. In the case of death, the Program helps the victim's dependents. The Crimes Victims Compensation Program is designed to assist victims of violent crimes through a period of financial hardship as a payor of last resort. If a victim has exhausted other sources of compensation, such as health insurance, and has no other source of reimbursement, the Program can help pay for medical costs, wage loss, psychological counseling, funeral expenses and support for dependent survivors to a maximum limit of \$25,000.

Due to the insufficient amount of state funding to pay SAFE claims, the program is forced to hold payments until funds become each new fiscal year. This creates a burden on providers and the operations of the program. For years, the program has started each fiscal year by paying claims that were in a "hold" status from the previous year; thus using up at least two quarters of spending authority in the first quarter. To catch up, a supplemental request for funds and an increase in spending authority was required in FY23. Based on the average shortfall over a three year-span and the expected incoming claims, an increase of \$800,000 needed to meet the statutory requirement to pay SAFE claims in a timely manner.

# Office of Director – GR Transfer to Witness Protection Fund Section 8.050

## Book 1 Page 182

Transfer from General Revenue to Pretrial Witness Protection Services Fund 0868. House Bill 66, passed during the FY20 Special Session, established the Pretrial Witness Protection Services Fund with an expected implementation date of October 1, 2020. This program will allow Missouri law enforcement agencies to apply for and seek reimbursement for providing protection services to witnesses, potential witnesses, and their immediate families during a criminal investigation.

# Office of Director – Witness Protection Program Section 8.055

# Book 1 Page 187

The Witness Protection Program allows Missouri law enforcement agencies to apply for and seek reimbursement for providing assistance protection to witnesses, potential witnesses, and their immediate families in criminal proceedings instituted or investigations. Witness and/or members for their immediate family may receive provisions from law enforcement for housing, health, safety and welfare, if testimony by such a witness may subject the witness and/or his/her family member(s) to danger of bodily injury, and may continue so long as the danger exists.

The State Forensic Laboratory Account was created under Section 595.045 to help defray expenses of crime laboratories if they are registered with the DEA or Missouri Department of Health. DPS distributes the funds through an application process to Crime Labs who analyze controlled substances, blood, breath or urine for court proceedings in the State. The funds may be used for equipment, capitol improvements and operational expenses. Technical assistance and monitoring is provided by the Department of Public Safety. (Kansas City Police Dept., St. Louis Co. Metropolitan Police Dept., Truman State, St. Charles Co., Independence, Missouri State Highway Patrol).

## Book 1 Page 207

The Peace Officer Standards and Training Fund disburses funds to law enforcement agencies to pay for the costs of Continuing Law Enforcement Education training for law enforcement officers or technical or professional training for non-commissioned personnel employed by a law enforcement agency. To be eligible for disbursement, courts shall assess a surcharge of \$1 in each criminal case. Monthly, the county or municipality will forward the collected surcharges to DPS. Distribution of these funds is made annually with agencies contributing less than \$500 receiving \$500, and agencies contributing in excess of \$500 receiving at least 90% of their contribution plus a portion of the difference between the total contributions less the total amount of agencies receiving \$500.

## Book 1 Page 223

The Missouri Capitol Police Department is responsible for the protection of the Missouri State Capitol, and other state buildings, at all times. The Director of the Department of Public Safety shall appoint a sufficient number of Missouri Capitol Police Officers, so that the Capitol grounds may be patrolled at all times, and that traffic and parking upon the Capitol grounds, and the grounds of other state buildings owned or leased within the capitol city and the county which contains the seat of government, may be controlled. The Capitol Police utilize foot, bicycle, and vehicle patrols, along with an array of technology, to carry out our mission. Capitol Police is a full-service law enforcement agency that provides law enforcement and protective services, including criminal investigations, arrests, an explosives detection K-9 team, an executive protection detail at the Governor's Mansion, and the responsibility for systematically screening visitors entering the capitol. All officers are commissioned and licensed under the Missouri Police Officers Standards and Training program.

Capitol Police requests to purchase three (3) new patrol vehicles and implement a rotation process of our fleet to improve reliability and dependability. We desire to replace our current vehicles with new Ford Police Interceptor Utility AWD vehicles. Capitol Police would like to replace our high-mileage vehicles, those showing significant signs of wear and tear, and increasing maintenance costs. The average life cycle for a police vehicle is 3-5 years, and Capitol Police vehicles are beyond the industry's recommendation. The new vehicles will provide reliable transportation, increase the service life cycle of our fleet vehicles, and decrease the time vehicles are out of service for maintenance issues.

Missouri Capitol Police is requesting to add seven (7) full-time sworn officers.

The addition of seven (7) patrol officers will provide more visibility and enforcement around the Capitol Complex as well as other state owned/leased buildings to enhance overall safety and security operations. The additional officers will reduce staffing shortages, overtime accruals, and reliance on other state law enforcement agencies (i.e. MSHP and Park Rangers). An increase of full-time officers would provide the flexibility in implementing an additional team of officers to accommodate events and adjust staffing levels quickly as needed. We often experience unforeseen events based on legislative issues, hearings that extend past normal business hours, and special events that require an increased police presence into the evening hours. These critical events include, but are not limited to, demonstrations, protests, rallies. large gatherings, and active threats.

The request for seven (7) additional officers is due in part to events taking place across the nation which has impacted our seat of government. Within the last year. Missouri Capitol Police is requesting to add four (4) Communications Dispatcher full-time employees to increase our overall dispatching capabilities.

Additional experienced dispatchers would provide a more thorough coverage 24/7, increase communications trained personnel during critical and special events, and increase efficiencies in receiving and recording calls for service. Currently, all dispatch operations are transferred to the Capitol East Gate after 1600 hours and handled by a sworn police officer who has other assigned duties. Experienced communications operators will assist in allowing the East Gate Officer to focus on their assigned tasks such as cameras and screening vehicles/visitors entering the Capitol.

Missouri Capitol Police has been requested by other divisions and state agencies to assist with 24/7 dispatching needs including, but not limited to, MULES inquiries, notifications, emergency call-outs, wants/warrants checks, criminal history checks, and investigations to alleviate the current workload on Missouri State Highway Patrol Communications. By providing dispatching services for other agencies,

MOSWIN has become widely accepted as the preferred public safety radio communications platform for local, state, and federal public safety users in Missouri. Dozens of radio sites have been added to the original design to augment and enhance the coverage and capacity of the growing MOSWIN user base. With every added radio site users experience improved radio performance while the maintenance responsibilities also increase. The number of MOSWIN radio sites has increased nearly 100% since 2013 while the number of technical support staff has remained unchanged over that same period. In addition, MOSWIN is currently comprised of 4 geographic zones which each have a Zone Core site that manages all radio traffic in that zone. MOSWIN technicians are responsible for the 2 of the 4 Zone Core sites and have unique maintenance needs. A fifth Zone Core was recently approved for the Kansas City (Lee's Summit) region.

The Patrol currently provides \$700 for enforcement personnel to purchase new concealable body armor on a five (5) rotational basis. The \$700 is not keeping with the increasing costs of these items. When the purchase amount of the vest exceeds the allotted \$700, the officer must pay the balance with personal funds or utilize funds from their uniform allowance. Using uniform allowance funds magnifies the lack of funds created by increased uniform costs. Additional ongoing funds are necessary to maintain the efficacy of the ballistic vest program, thereby ensuring maximum officer safety. The Patrol requests to increase the allowance to \$1.100.

In 2022, there was a 63% increase in the national average price for a gallon of gas compared to the previous year. In 2021, according to AAA, the national average for a gallon of gas was \$3.07, however, in 2022 that price increased to \$5.01 - setting a new all-time high. With this substantial increase in fuel costs, the Patrol projects the current funding levels of fuel appropriations will not cover fiscal year 2024 expenses. Without this increased appropriation, the Patrol's fleet operations would be adversely affected and could significantly reduce vehicle operations and the Patrol's ability to respond to calls for service. Fuel expenditures are projected to exceed the amount appropriated in FY23 by approximately \$2.7 million or 46%. This increase is based on total estimated miles driven of 28 million miles, with an average of 14.5 miles per gallon, and \$4.50 cost per gallon.

The Patrol purchased Tasers as a less than lethal use of force option in FY18 under a five-year service program. The model purchased is no longer avaiablle to purchase new. The Patrol has renewed the program with a different model, but it comes at a significantly higher cost.

Due to the current economic climate across the country, the Patrol is experiencing high costs for routine maintenance supplies as well as emergency equipment that needs to be installed on vehicles. The funding appropriated for vehicle maintenance is no longer adequate and needs to be increased. The Patrol saw an approximate 19% fleet cost per mile increase for maintenance and repair from FY21 to FY22.

The Patrol requests approval to purchase a single engine utility turbine airplane. This airplane would be used for criminal searches, emergency searches, personnel relays, and for transporting supplies to areas in need during natural or manmade disasters. This airplane has the performance capabilities to take off and land on short and unimproved runways. This expands the Patrol's abilities to provide support during disaster relief efforts and offers a redundant option in the fleet based on its size, which is not available now. If approved, the Patrol would replace three aging, single engine airplanes: a 1981 Cessna 210, a 1984 Cessna 182, and a 1985 Cessna 182, which would result in an overall fleet reduction of two aircraft. The average age of the Patrol's current single engine fleet of five (5) aircraft is 32 years with an average of 7,906 hours.

## **State Highway Patrol - Water Patrol Division, Section 8.105**

## Book 2 Page 383

This section promotes water safety and provides law enforcement on approximately 700,000 acres of water in the state. The patrol provides for boat inspections; accident and criminal investigations; underwater rescue and recovery services; permitting and patrolling regattas, races, fishing tournaments, skiing exhibitions; authorizing placement of navigational aids and regulatory markers; and educational programs.

Technology in the public safety field has advanced significantly over the past decade to the point where data has become a critical element in how enforcement personnel perform their duties. Reliance on the data connectivity provided by a laptop is not good enough to leverage modern technology. A standalone modem, with better antennas and greater bandwidth, would provide the ability to send more data (audio, video, Internet of Things - IoT) to and from the field, which would increase the availability of officers.

The Patrol is in the process of transitioning to a metal patrol boat fleet, which was found to be a cost-effective alternative to the larger fiberglass lake boats currently in inventory. They are 28' welded aluminum, collared, center console boats that are purposely constructed for law enforcement work. Although higher in cost, the average service life is estimated to be twice as long as a similar fiberglass vessel. In addition, the aluminum hull will better withstand wake impacts, not be subject to yearly fiberglass repairs, and the collared system will protect against vessel damage during enforcement contacts. However, with the current rate of inflation the Patrol estimates the total cost of a metal boat to be approximately \$300,000 in 2023. Therefore, the Patrol is requesting an ongoing appropriation of \$900,000 for patrol boat replacement. Gov Rec is for 2 boats, with funds ongoing.

Currently, the Patrol has two (2) specialized vehicles outfitted to support its thirteen (13) dive team members throughout the state, one in Troop A (Lee's Summit) and the other in Troop I (Rolla). The older of the two trucks, located in Troop A, is a 2013 Ford F-550 with 120,598 miles. Accounting for the FY24 budget process, bid process and build time, this dive truck will have eclipsed the 140,000-mile OA threshold at the time of its replacement. The Patrol is requesting spending authority only to complete this acquisition.

In 2022, there was a 63% increase in the national average price for a gallon of gas compared to the previous year. In 2021, according to AAA, the national average for a gallon of gas was \$3.07, however, in 2022 that price increased to \$5.01 - setting a new all-time high. With this substantial increase in fuel costs, the Patrol projects the current funding levels of fuel appropriations will not cover fiscal year 2024 expenses. Without this increased appropriation, the Patrol's fleet operations would be adversely affected and could significantly reduce vehicle operations and the Patrol's ability to respond to calls for service. Fuel expenditures are projected to exceed the amount appropriated in FY23 by approximately \$2.7 million or 46%. This increase is based on total estimated miles driven of 28 million miles, with an average of 14.5 miles per gallon, and \$4.50 cost per gallon.

The Patrol has four (4) 2006 Lenco Bearcat armored vehicles. One each is assigned to Mobile Field Force and S.W.A.T. teams at Troops A, C, D and F. These vehicles were purchased new in 2006, and their age has negatively impacted their performance and reliability. It is imperative these vehicles are always functional for necessary law enforcement missions around the State. The safety of officers could easily be compromised due to the vehicle's deficiencies due to their age. The Patrol will sell one (1) from its fleet and use the proceeds toward the purchase of one (1) new vehicle in the initial year of its replacement program.

The Patrol has a heavy-duty 2011 Freightliner M2112 truck with nearly 200,000 miles. This truck is equipped with a crane for lifting heavy test weights used in maintenance and calibration of truck scales across the state for the Patrol, Kansas City Police Department, St. Louis City Police Department, St. Louis County Police Department, and Fort Leonard Wood. This is one of two (2) trucks the Patrol has for this purpose and needs to be replaced due to age and mileage.

## **State Highway Patrol - Crime Labs, Section 8.120**

## Book 2 Page 435

This section provides for a statewide crime laboratory system. These labs process evidence to assist law enforcement in the apprehension and conviction of criminal offenders, involving cases submitted by a variety of governmental agencies. Services provided include chemical analysis (drug identification), DNA analysis, trace evidence comparisons (latent fingerprints), firearm identification, document examination, and shoeprint comparison.

The Patrol has expanded its capacity to include outsourcing of sexual assault cases and created a Rapid DNA program. Whereby outsourcing sexual assault cases has enabled the lab to reduce the sexual assault case analysis backlog, managing the data return and Combined DNA Index System (CODIS) entry has proven to be challenging. This step in the process has taken Criminalists away from performing work on current cases. Moreover, with the advent of a Rapid DNA program, which helps reduce the number of cases submitted, the Patrol will be required to manage DNA databases on the Rapid DNA instruments and provide support for law enforcement agencies. These and other forthcoming projects such as probabilistic genotyping, investigative genetic genealogy, training, and research coordination have necessitated increasing staff to manage these projects

Virtual Comparison Microscopy (VCM) is an emerging technology in the forensic field of firearm identification. VCM captures high-resolution 3D images and surface topography of expended ammunition components. These images can be used to compare expended ammunition components in casework and allow examiners to view striations on expended components; to collect data that facilitates comparisons that are more objective; perform statistical analyses that, until the emergance of the VCM, was not possible; and to enable virtual technical reviews. Additionally, VCM provides the potential for creating databases regarding strength of correlation and relative frequency of toolmarks, plus the collection of other data that can be used for analysis. These tools have the potential to revolutionize firearms examination and significantly expedite comparisons to provide a quick analysis for investigators.

## **State Highway Patrol - Academy, Section 8.125**

## Book 2 Page 460

This section provides basic, in-service and specialized training for members of the patrol, for personnel from other state agencies and for local law enforcement agencies. Training is provided at four levels: basic (officers are taught modern police methods, skills, and procedures to meet the statutory requirements for certification), specialized (officers become experts in areas such as firearms, radar, blood alcohol testing, etc), in-service/proficiency (officers are kept current in areas of criminal justice responsibilities and duties), and administrative (supervision and management skills).

## **State Highway Patrol - Technical Services, Section 8.140**

## Book 2 Page 496

This core request is for funding to provide effective and timely communications for the Patrol, as well as to maintain a comprehensive data system. The Information and Communications Technology Division operates a statewide voice communications network, manages various internal telecommunications and voice systems, installs and maintains mobile communications equipment, and is responsible for the operation of the communication consoles and telephone switchboards at each of the nine troop headquarters It also develops and operates data systems in four major areas (criminal justice, traffic records, administrative records, and computer support), and operates the Missouri Uniform Law Enforcement System (MULES) network, which provides criminal justice data services to regional law enforcement agencies across the state and is linked to the National Crime Information Center (NCIC) operated by the FBI. The Criminal Justice Information Services Division is charged with being the state repository for criminal records.

MOSWIN has become widely accepted as the preferred public safety radio communications platform for local, state, and federal public safety users in Missouri. Dozens of radio sites have been added to the original design to augment and enhance the coverage and capacity of the growing MOSWIN user base. With every added radio site users experience improved radio performance while the maintenance responsibilities also increase. The number of MOSWIN radio sites has increased nearly 100% since 2013 while the number of technical support staff has remained unchanged over that same period. In addition, MOSWIN is currently comprised of 4 geographic zones which each have a Zone Core site that manages all radio traffic in that zone. MOSWIN technicians are responsible for the 2 of the 4 Zone Core sites and have unique maintenance needs. A fifth Zone Core was recently approved for the Kansas City (Lee's Summit) region.

The Missouri State Highway Patrol is the central repository for criminal history/related criminal justice information (CJI) and is responsible for providing access to CJI to authorized criminal justice agencies. The Patrol is responsible for providing a secure environment for CJI. This requires staffing and equipment/software to ensure the security of the data. Cyber attacks and disruptions continue to escalate and are becoming more sophisticated. The Patrol must continue to increase its capabilities to not only defend its cyber terrain, but it must continually assist other Missouri criminal justice agencies to defend their infrastructure and criminal justice data. The Patrol should be staffed at a minimum with 20 FTE but currently has 13 based on industry guidelines. The Patrol has connections with over 600 criminal justice agencies for an additional 30,000+ users.

Technology in the public safety field has advanced significantly over the past decade to the point where data has become a critical element in how enforcement personnel perform their duties. Reliance on the data connectivity provided by a laptop is not good enough to leverage modern technology. A standalone modem, with better antennas and greater bandwidth, would provide the ability to send more data (audio, video, Internet of Things - IoT) to and from the field, which would increase the availability of officers.

Current models of Motorola Missouri Statewide Interoperability Network (MOSWIN) mobile and portable radios have reached end of service and are no longer supported when a radio requires repair. This necessitates the purchase of a replacement radio when an older non-functioning radio (originally purchased in 2010) is placed out of service. The Patrol is able to currently keep up with replacement purchases, but nearing the time when the complete fleet of radios needs to be replaced. The total cost to replace the entire fleet would be approximately \$35,000,000. The Patrol believes it would be practical to spread the cost over several years and update the radio systems as vehicles are replaced.

## Book 3 Page 583

Persuant to Section 311.240.4, RSMo, application for renewal of licenses must be filed on or before May 1st of each year. Thus, the Division uses the refund allotment to refund license fees that were paid in advance and not used due to various reasons such as sale of the business. The Division must refund businesses that have paid in advance for a license that was not used. This ensures compliance with Regulation 11 CSR 70-2.150(5), which addresses refunds on licenses.

Fire Investigators work in the same harsh environments which are causing the cancer rate among the fire service to soar. Five Division Fire Investigators have been diagnosed with some form of cancer in recent years. A concerted effort must be made to protect employees from suffering these serious work-related health issues. To assist in protecting the health and wellness of our Fire Investigators, DFS respectfully requests funding to support personal protective equipment.

These dollars will be used to provide physical protection from contaminates contacting their clothing and skin by providing a set of extrication rated jacket and pants, for each field investigator. Additionally, this equipment will protect the field investigator from blood-borne contaminates when investigating fires and explosions involving fatalities.

The Division of Fire Safety maintains a fleet of 50 vehicles yet has very limited funding to maintain, purchase and replace vehicles. Therefore funding to replace 5 high-mileage vehicles in FY24 is requested. All of these vehicles will be assigned to field staff who perform program mandates and enforcement duties throughout the State.

We are requesting a spending authority increase of \$20,000. This will allow inspectors to have annual QEI (Qualified Elevator Inspectors) and NAARSO (National Association of Amusement Ride Safety Operators) training. These improvements would assist the Division of Fire Safety in assuring the safety of the general public when living, working, or visiting locations and businesses with elevators and amusement rides.

The Division of Fire Safety is requesting GR funds for the Boiler & Pressure Vessel Safety Fund PS expenses. While the statewide salary increases were much needed and appreciated this has had a big impact on our fund balance. Other factors that have negatively impacted our fund balance include: FY20 fund sweep in the amount of \$252,956.82, decline in revenues by 13.12% and an increase in expenses by 30.46% over the past five years. Fees have not been increased since 2003, and at this time we are initiating a rule change to increase fees and bring our fund back to a balance that can sustain the program. We anticipate the promulgation of this rule to take effect by January 2024. The Division is asking for GR funds to pay employees in a one-time amount of \$250,378 to assist with our declining fund balance. This would cover a portion of the salaries for a Program Manager, seven inspectors, and an administrative assistant.

# Fire Safety - Firefighter Training, Section 8.175

# Book 3 Page 668

This funding provides a wide spectrum of courses at no cost to the fire service, law enforcement personnel, emergency responders, local emergency planning committees, and other state agencies upon request. It is estimated that at least 80% of Missouri's approximate 25,000 fire fighters volunteer their service and often represent departments with little or no budget for training. The intent is to provide fire service and emergency response personnel with the most current training available in order to prepare them to respond to lifesaving incidents involving the citizens of Missouri.

This is a new program within the MVC to oversee the statewide policy development, implementation, and operation of Veteran Suicide prevention, awareness, and education. This includes coordinating with the Department of Veterans Affairs (VA), state agencies and community programs ensuring the stakeholders have access to timely, quality services. This position will administer national grants and represent the MVC as a subject matter expert on a national platform to inform program policy. The program will utilize data analysis to develop strategies to decrease Veteran suicide in this state.

# Book 3 Page 718

This program provides assistance to Veterans Service Organizations or municipal government agencies certified by the United States Department of Veterans Affairs (VA) to process Veterans claims within the VA system and assist Veterans with other Outreach needs. Applications for matching grants are made through and approved by the Missouri Veterans Commission. The Grant Recipients participate in the distribution of grant funds at MVC HQ annually and participate in a fund balance review quarterly. The majority of Service Officers in the grant program are located in VA Medical Facilities throughout the state (Kansas City, Columbia, St. Louis, Poplar Bluff, Mt Vernon, and Springfield).

## **Veterans Commission – Veterans Homes Section, Section 8.200**

# Book 3 Page 723

This section provides nursing and domiciliary care, therapy, and leisure programs at the seven Veterans Home located throughout the state (St. James, Mt. Vernon, Mexico, Cameron, St. Louis, Cape Girardeau, and Warrensburg). This program operates based on a signed legal agreement with the Federal Department of Veterans Affairs which, in turn, provides a per diem for each veteran receiving care.

Legal Base: Chapter 42 RSMo, 38 CFR Parts 17 et al.

# **Veterans' Homes & Cemeteries Expense and Equipment- Section 8.205**

# Book 3 Page 745

OA FMDC requested the utilities appropriation be transferred from their core budget to the Missouri Veterans commission (MVC) core to support utility costs for the Missouri Veterans Homes and Missouri Veterans Cemeteries. Upon the approval of the transfer of this spending authority, it was also approved that remaining spending authority may be utilized to support systems, furniture, and structural modification of Veterans Homes and Cemeteries.

Utility costs within the five Veterans Cemeteries, and seven Veterans Homes continue to increase. As a response to COVID-19, an internal investigation was initiated which resulted in the creation of 'trigger point analysis'. One major realization in trigger point analysis was the need to utilize an increased supply of outside air. Pulling outside air in the Veterans Homes HVAC systems significantly increased the energy utilization and therefore the cost of heating and air conditioning the large Veterans Homes as well as placing a toll on the HVAC systems themselves. Inflationary increases over the last 12 months have further driven utility costs upward. During FY23, MVC expects to fully exhaust the spending authority granted under this appropriation.

MVC received additional funding support in FY23 to account for the resource shortages due to decreased census, inflation, and infection control needs brought forth by the onset and ongoing complications of COVID-19. Staffing shortages and turnover further compound the fiscal situation. Although COVID-19 dramatically impacted revenues into the Veterans Homes Funds, it was forecasted prior to COVID that MVC would need additional state funding support. Reductions in spend have further compounded on the ongoing maintenance and repair needs of all MVC programs and are realized anew with the inflationary increases.

8/10/23 9:11 im\_committee\_markup\_annual The Gaming Commission's role is to monitor gaming-related activities to ensure criminal elements do not infiltrate licensed gaming operations. The Commission also works to protect the public by ensuring games are conducted fairly according to rules. The Commission receives its operation funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955, RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

## **Gaming-Fringe Benefits, Section 8.220**

### Book 3 Page 794

Fringe benefits for employees of the Missouri State Highway Patrol assigned to Gaming are provided through a retirement and insurance system other than MOSERS and MCHCP. Because of this, state contributions for these fringes are paid directly to the systems and not transferred. It is necessary that specific funds for this purpose be appropriated. Benefits include health and life insurance, retirement and long-term disability, worker's compensation, and the Employee Assistance Program.

## Gaming Commission Fund Transfer to Veterans' Commission Capital Improvement Trust Fund - Section 8.245

## Book 3 Page 825

The Commission receives its operational funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955, RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

With the addition of the Governor's priority Project Eagle Registered Apprenticeship and the On the Job Training Program, there is a need for one Administrative Support Assistant for data entry and program assistance. With approximately 16,000 employers sponsoring registered apprenticeships, MONG projects a large number of soldiers to utilize this program.

Requesting one Legal Counsel due to the staff Judge Advocate General (JAG) being down to only two attorneys. OTAG is limited in the ability to utilize their services for legal matters and there is a concern regarding utilizing their time for state employees and state legal issues that arise

Request core increase in general revenue and increase to federal spending authority (AG Admin, NG Trust, Veteran Recognition, AG Field, and Contract Services) to support increase in federal funding for employees hired under cooperative agreements. Federal programs have dedicated more funding for employee promotions, reclassifications and retention. This core increase in general revenue and increase to federal spending authority is also needed to accept the increase in the federal Centralized Personal Plan (CPP). CPP funding provides a mechanism for the reimbursement of direct cost incurred by MO for centralized personnel, accounting and procurement staff activities in support of federal awards programs. Additional funding coming to Missouri will generate over \$1.4 million in economic impact to the state.

## **General – Veterans Recognition Program, Section 8.261**

### Book 3 Page 862

This law authorized by RSMo 42.170-42.222, recognizes WWII veterans, Korean Conflict veterans, and Vietnam War veterans for their patriotic military service to our State and Nation.. Any Missouri veteran's spouse or the eldest living survivor of a deceased veteran who meets qualifications for war recognition may apply for a medallion, medal and a certificate. SB 600 (2014) broadened eligibilityto Missouri National Guard veterans regardless of residency. This act created two new medallion programs, "Operation Iraqi Freedom and Operation New Dawn" and the "Operation Desert Shield and Operation Desert Storm" which authorizes the issuance of a military medallion, medal and certificate of appreciation to any veteran who served.

### Adjutant General - Field Support, Section 8.261

### Book 3 Page 867

The OT AG/MONG Field Support Program supports the operations and maintenance of the Missouri National Guard readiness centers and associated grounds. The MONG operates 59 readiness centers in 54 locations; the average age of these facilities is in excess of 43 years with 56% being over 40 years of age. These military facilities are state-owned and require recurring funding to support readiness center operations, utilities, building, grounds maintenance and custodial requirements. Adequate Field Support program funding is critical to ensure members of the Missouri National Guard have adequate facilities to conduct daily operations, training, store, and maintain associated military equipment. These facilities are also utilized during state emergency duty as operational staging areas, warming shelters, and distribution points for local communities. The facilities are also utilized by the Highway Patrol as driver testing sites. Failure to provide adequate operational support will ultimately result in a loss of federal funding and resources.

## Adjutant General - Missouri Military Family Relief Fund, Section 8.261

## Book 3 Page 879

In 2005, HB 437 was signed into law creating the Missouri Military Family Relief Program. This legislation (RSMo 41.216-41.218) established the Missouri Military Family Relief Fund (#0719) which authorizes the Adjutant General to make grants and provide other financial assistance or services to families of persons who are members of the Missouri National Guard or Missouri Residents who are members of the Reserve Forces of the United States. Family Relief payments and services are based on financial need.

## Adjutant General - Training Site Revolving Fund, Section 8.261

## Book 3 Page 884

The Missouri National Guard operates several training sites across Missouri, includuding the Ike Skelton Training Site (ISTS) which houses the Office of the Adjutant General, SEMA and MIAC and is located 8 miles east of Jefferson City. Approximately 600 FTE are stationed at ISTS and Camp Clark training sites where military and general public employee training is conducted. The MONG Training Site Fund authorized in RSMo 41.212 allows the OTAG to charge for services provided at the training sites and to retain monies collected in the Training Site Revolving Fund to use as an offset to the cost of service.

## Adjutant General - Contract Services Program, Section 8.261

## Book 3 Page 889

The Office of the Adjutant General Contract Service Core Program, through cooperative funding agreements with the Federal Government, National Guard Bureau (Washington, D.C.), provides funding necessary for the operation of Army and Air National Guard Facilities and activities to include: facility minor maintenance and repair, military training, equipment maintenance, telecommunication, automated target ranges, facility security, fire protection, electronic security, environmental and aviation repair. The various federal/state agreements included in the program are supported with 75% and 100% federal funding. The core general revenue and other portions included in this item, requests funding necessary for the 25% state match required to support Missouri's share of the cost of these agreements.

Request core increase in general revenue and increase to federal spending authority (AG Admin, NG Trust, Veteran Recognition, AG Field, and Contract Services) to support increase in federal funding for employees hired under cooperative agreements. Federal programs have dedicated more funding for employee promotions, reclassifications and retention. This core increase in general revenue and increase to federal spending authority is also needed to accept the increase in the federal Centralized Personal Plan (CPP). CPP funding provides a mechanism for the reimbursement of direct cost incurred by MO for centralized personnel, accounting and procurement staff activities in support of federal awards programs. Additional funding coming to Missouri will generate over \$1.4 million in economic impact to the state.

NDI request for ongoing funding for a DMAT Deputy Commander. The DMAT team of 339 members is comprised of many specialty team positions, which requires a Deputy Commander with medical and technical expertise. DMAT assets are stored in 4 warehouse locations across Missouri. The Deputy Commander position would travel between warehouses to manage inventory and logistic assets, including the maintenance of 750 ventilators.

NDI request for GR funding for match leverage to the Emergency Management Performance Grant. This grant has a 50/50 match requirement. SEMA utilizes approximately 40% of the grant funds to support the State Emergency Operations while 60% is subawarded to local Emergency Management Agencies. GR match has historically not met the need to support the E&E and SEMA utilizes soft-match generated by trainings, meetings, and partnerships. SEMA has received supplemental grants funds that could not be utilized because there is not sufficient match, causing preparedness and life safety measures to remain stagnant.

# State Emergency Management Agency - MERC Distributions, Section 8.275

## Book 3 Page 964

The Missouri Emergency Response Commission (MERC) is responsible for administering the state and federal Emergency Planning and Community Right-to-Know-Act (EPCRA). Industry affected by this legislation are required to report to the MERC annually to comply with state and federal laws. Fees are collected annually according to established reporting procedures. The MERC provides training to Local Emergency Planning Committees (LEPCs) and fire departments on response and mitigation of hazardous chemical accidents. The MERC assists the LEPCs in the development and review of hazardous materials plans and serves as a distribution point for the Federal Hazardous Materials Transportation Uniform Safety Act funds of 1990 (HMTUSA) for training and planning grants.

NDI-SEMA Grant Increase in federal authority. Threshold requirements have increased to \$1M for small projects allowing newly declared disaster applicants to quickly receive funding bypassing Congressional review. This new regulation in conjunction with large payments still being paid out for COVID-19 to hospitals with no period of performance dates established yet by FEMA is the basis for this ongoing request for federal disaster spending authority. Also, the Cooperating Technical Partners training program and Emergency Management Performance Grant have had increases in federal awards, requiring the need for this request.
